JBR500: THE ULTIMATE VIRTUAL GARAGE

- **JBR Capital reaches the milestone of £500 million pay-outs**
- **New virtual garage, JBR500, showcases 50 highly sought-after vehicles**

London based JBR Capital, specialising in high-end vehicle finance, celebrates reaching the key milestone of £500 million in pay-outs by launching the JBR500 virtual garage.

Featuring some of the most desired cars of our time, from a Pagani Huayra to a Lamborghini Aventador, JBR500 showcases a selection of the most interesting and historically significant cars that have formed part of JBR's first £500 million.

In just four and a half years JBR Capital has paid out this amount, lending against supercars, classic cars, prestige vehicles and even race cars – such as the McLaren F1 GTR.

JBR Capital's expert Directors share their favourites from the JBR500 and their passion for funding these vehicles:

Darren Selig, Executive Chairman at JBR Capital: "Surpassing £500 million paid out loans is an incredible milestone, achieved by the will and determination of all the 50+ amazing staff we now have at JBR. For me, the Ferrari Enzo Ferrari stands out as being one of the most iconic cars in the JBR500. I have a deep affinity with this timeless work of art having personally arranged finance on 12 of the 399 over the last 15 years."
